of AI solutions

Establish and comply
with AI Ethics
Principles

Skill all employees
with AI training

Moving AI to the edge

Don't Be Left Behind

Acumos

Athena, November 2018

The AI transformation is here. And it's touching businesses of all sizes and industries of all types.

To maximize the potential of AI for 5G, we need to build mutually beneficial community that leverage machine intelligence and human empathy.

Together, we can harmonize the AI community, accelerate open ML development and expedite AI adoption.
