

Acumos Wiki

Events

Acumos Day NYC 2018 - presentations and recordings are now available!

Athena Release

12 December 2018 - Athena Maintenance (version 1.1) released. See the [Release Notes](#) for more info.

7 November 2018 - Athena (version 1.0) released. See the [Release Notes](#) for more info.

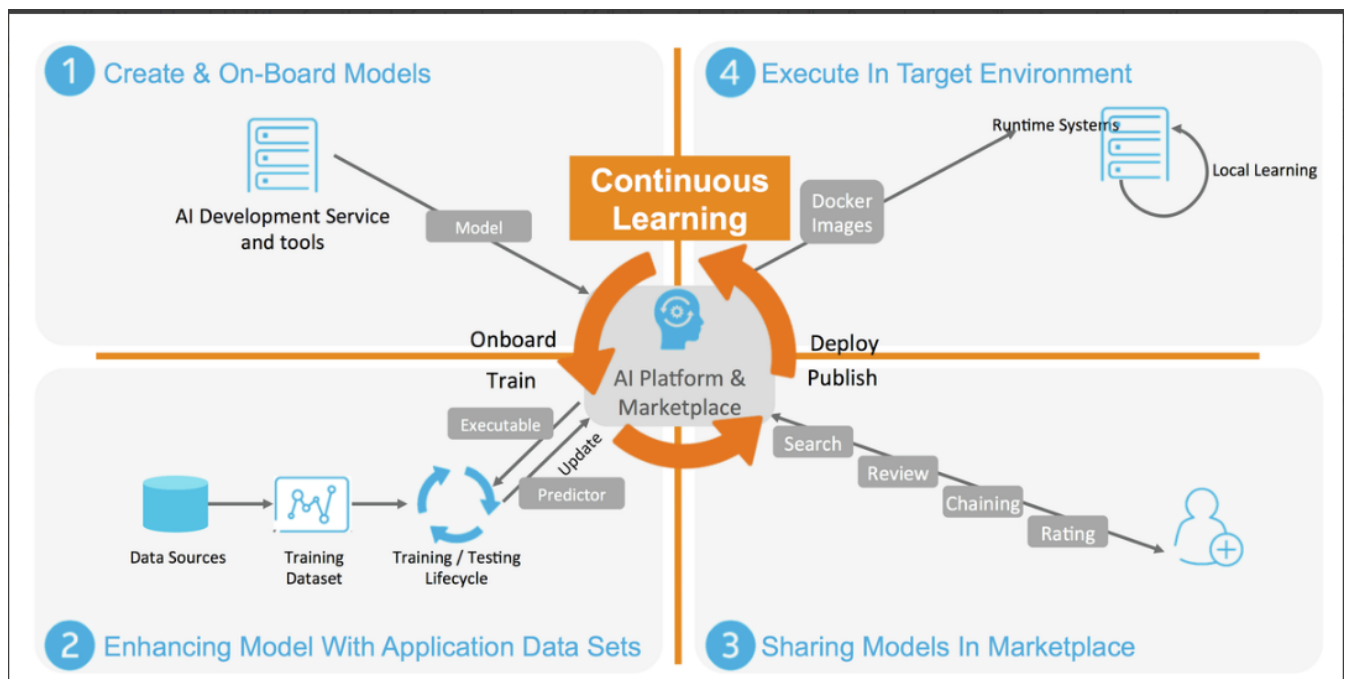

Acumos Portal and Marketplace Users

<https://marketplace.acumos.org> Acumos Portal and Marketplace end user guides are found on the [Acumos Documentation](#) site. End user Q&A can be found on [StackOverflow](#).

Getting Started

See the [Project Contributor Wiki](#) for an intro to many aspects of the infrastructure and community practices as proposed to be used in Acumos. See the [Communication](#) page for info on mailing lists and IRC channels. Questions about using Acumos should be posted to [StackOverflow](#) or one of the Acumos mailing lists.

- **Need to create a bug report?** Read the [bug report guidelines](#) and then create a bug in [Jira](#) (you must log in with your Linux Foundation ID)
- **Want to look at user stories** planned for a release? Head over to [Jira](#).
- **Want to review code patches?** Take a look at how to do [Code Reviews](#) and then you can start reviewing code in [Gerrit](#) (Linux Foundation ID required to log in)
