Welcome to the Acumos Documentation project page!

If you are looking for Acumos platform documentation, please visit docs.acumos.org.

Project Description:

- **The Docs team is responsible for the documentation curation, procedures, best practices and tools**
- The documentation repository contains end-user guides, with content provided by the developers who work on the Portal Marketplace, Design Studio, Onboarding, Deployment, Platform OA&M, and System Integration components
- Editorial support in producing project-and-component-level documentation for Acumos releases
- Define guidelines and tooling for documentation handling across all Acumos projects
 - Style Guide
 - Templates
 - Tooling for locally building docs with Sprinx
- Maintain the Acumos documentation project
