

# Project Infrastructure

This space will focus on the Acumos project infrastructure, as a precursor and supplement as needed to the Acumos developer and user documentation, when published. In the near term it will provide an overview of the tools setup by the LF IT team for the Acumos project. Also see this page for a guide to using the infrastructure: [Acumos Developer's Guide to CI-CD Resources and Processes at the LF](#)

## Current Tools

Tool	Purpose	Access	Notes
<a href="https://support.linuxfoundation.org">support.linuxfoundation.org</a> <a href="mailto:helpdesk@acumos.org">helpdesk@acumos.org</a> (OLD)	Acumos Helpdesk, as interim and supplement to JIRA project for infra etc once setup.	open	
<a href="https://rt.linuxfoundation.org/">https://rt.linuxfoundation.org/</a>	Support ticket status portal.	by account on that portal, for your email address.	Set initial password by visiting <a href="https://rt.linuxfoundation.org">https://rt.linuxfoundation.org</a> , and selecting "Forgot your password?".
<a href="https://jira.acumos.org">https://jira.acumos.org</a>	Project management system	by LF ID	Login to update content
<a href="https://wiki.acumos.org">https://wiki.acumos.org</a>	Wiki (this wiki)	by LF ID	Login to update content
<a href="https://lists.acumos.org/">https://lists.acumos.org/</a>	Mail list for Acumos AI Project. Click on "Sub-Groups" to subscribe to the mail lists of your choosing.	<a href="https://groups.io">groups.io</a> signup	<ul style="list-style-type: none"><li>• <b>acumosaidevdiscuss</b></li><li>• <b>acumosaicommunity</b></li><li>• <b>architecture</b></li><li>• <b>security</b></li></ul>
<a href="https://freenode.net/">https://freenode.net/</a> IRC (use any native or web client e.g. <a href="https://www.ircloud.com">https://www.ircloud.com</a> ) AND <a href="https://acumosplatform.slack.com/">https://acumosplatform.slack.com/</a>	Realtime and async direct communication. Supported by logging bots for collection of project meeting minutes, and integrated with other infra tools via IRC bots, e.g. for various types of notices. Specific channels will be setup including #lf-releng (LF's common release engineering support channel) and #acumos (general Acumos community channel), and other channels as needed/desired (anyone can create a channel). #acumos #acumos-meeting	open	You can reserve your IRC nickname at <a href="https://freenode.net/">https://freenode.net/</a> by creating an account
<a href="https://gerrit.acumos.org">https://gerrit.acumos.org</a>	git-based code submission and review frontend	open, by LF ID	Login to submit/review/etc
<a href="https://jenkins.acumos.org/">https://jenkins.acumos.org/</a>	Build service	by LF ID	Login to see jobs
<a href="https://logs.acumos.org/">https://logs.acumos.org/</a>	Build logs	open	
<a href="https://nexus.acumos.org">https://nexus.acumos.org</a>	Artifact repository	open	
<a href="https://hub.docker.com/u/acumos/">https://hub.docker.com/u/acumos/</a>	Docker Hub repository	open	
<a href="https://etherpad.acumos.org/">https://etherpad.acumos.org/</a>	Etherpad	open	collaborative notepad
<a href="https://ai.facade-oss.org/projects?id=1">https://ai.facade-oss.org/projects?id=1</a>	Facade contributor statistics	open
