Acumos AI Wiki

Getting Started

See the [Project Contributor Wiki](https://wiki.acumos.org) for an intro to many aspects of the infrastructure and community practices as proposed to be used in Acumos. See the [Communication](https://wiki.acumos.org) page for info on mailing lists and IRC channels. Questions about using Acumos should be posted to Stack Overflow or one of the Acumos mailing lists.

- **Need to create a bug report?** Read the [bug report guidelines](https://wiki.acumos.org) and then create a bug in [Jira](https://jira.acumos.org) (you must log in with your [Linux Foundation ID](https://www.linuxfoundation.org)).
- **Want to look at user stories planned for a release?** Head over to [Jira](https://jira.acumos.org).
- **Want to review code patches?** Take a look at how to do [Code Reviews](https://wiki.acumos.org) and then you can start reviewing code in [Gerrit](https://gerrit.acumos.org) (Linux Foundation ID required to log in).

Using Acumos

- **User Guides** on the Acumos Platform Documentation site

Setting Up Acumos

- Zero-to-Acumos (z2a) Guide
- Portal and Marketplace Admin Guide
- Operator Guides

Developing Acumos

- Platform Architecture Guide
- Component Guides
- Project Contributor Wiki
- Code Walkthrus

Acumos Community

- Code of Conduct
- Acumos Events
- Community Tools & Project Infrastructure
- Acumos Documentation Project
